ce -	Hi Jayden and Michael, Please see attached Subcontractor Safety and Environment Infringement Notice for acknowledgement and signing. Once signed please scan and return a digital copy for records. Kind Regards,	
ve	Hi Sam, Please see attached Variation No. 01 requested for the upgrade of the intersection signals on Eden Station Drive to allow for traffic movements onto Australia Avenue. Note that there was conflict between final line marking as shown and the function of the intersection (drawings referred to the ultimate alignment four lanes etc). BMD have allowed for lighting and linemarking to facilitate access into and out of Australia Ave. Any queries please contact me to discuss. Kind Regards,	
L/EX2	Hi Sam, Please see attached Variation No.2 for the installation of Stormwater Structure 1/EX2 behind the existing stone retaining wall. Any queries please contact me to discuss. Kind Regards,	
n	Hi Sam, Please see attached EOT 01, EOT 02 and updated program. Any queries please contact me to discuss. Kind Regards

			Variation 05 - Reinforcement in Bridging Slabs
			PSUM - 0012 - QR Co-Ordinat
			Variation 06 - Dayworks to Cre from Structure 9/2

	Message	Document Name
1	Hi Sam, Please see attached Variation No. 05 requested for the extra over for the inclusion of reinforcement to Item 5017 "Supply all materials and construct sewer bridging slab in accordance with details shown on Cardno drawing 510240-001-CI-1500" Any queries please let me know. Kind Regards,	
ion	Hi Sam, Please see attached updated pricing for relocation of QR assets. CV's costs (\$35092.52) are broken down into: • 22k Detailed Excavation & Conduit Relocation/Modification over existing services, backfilling of services removed etc. • 13K EO in footings, cabling, poles, outreaches, material etc associated with scope changes, JU Poles etc. with contracted scope accounted for. BMD have allowed for relocations shown as per 510240-004-CISKO1 REV A. BMD have made no allowances for disconnection or reconnection of QR Assets. QR are responsible for these works. BMD have made no allowances for additional Energex, Telstra, Opticom etc relocations if required. PSUM is submitted as Extra Over to contract works. BMD have made no allowances for reinstatement or make good work regarding irrigation. BMD have made no allowance for new materials (including but not limited to pits, poles, luminaires, cameras, etc) where noted for relocation. It is assumed all QR assets are suitable for re-use. BMD note that this is not the final cost for the works and forecast will be updated progressively as items noted TBC etc.. Any queries please let me know. Kind Regards,	
ek	Hi Sam, Please see attached Variation No. 06 for the dayworks undertaken from Structure 9/2 to the creek as instructed on 16th February 2022. Any queries please let me know. Kind Regards,
