Hi Lorna,

Thanks for your email, please see attached an old tender drawing where old roller doors D606 & D603 have been deleted.

I'm unsure what the Architect did with naming conversion of D605, however, it is one of the MSSB cupboard doors allowed for[MSSB Cupboards & Doors (D327, D328, D605)].

Please let me know if there is anything else I can help clarify?

Kind Regards,

**Tom Kaiser****Contract Administrator, ATG Projects**

**Subject:** Door Schedule/Door Hardware Schedule - Mini Majors

Tom,

I have a door schedule MMP-XX-5001 rev H (from procore)

I have a door hardware schedule QMA21048-2 - Emailed from you 04/03/3021

I have an email from you 17.03.2021 re the fire doors, with your reply confirming what architect said.

Door 605 - is on the MMP-XX-5001 rev H and the email from you and architect. Yet on QMA21048-2 it says the door is deleted, along with D606 & D603.

Please confirm

Kind Regards

**Lorna Merrick**
