

Activity 2B

Estimated Time	25 Minutes
Objective	To provide you with an opportunity to identify and report incidents and injuries to designated persons according to workplace procedures.
Activity	Individually, in pairs or in groups, complete the following; Just after mealtime, Joseph and Sammy are riding tricycles on the playground when they collide. They both fall to the ground. Joseph has a long cut on his leg that went through his pants and Sammy has a large bump on her cheek that is swelling quickly. You and another educator (Sarah Johnson) both assist the children with their injuries. Sarah treats the cut on Joseph's leg by applying pressure, cleaning the site and putting a bandage on it. You apply ice to Sammy's bump and monitor her for any other signs of injury. Fill out your centre's incident report form for this study and attach it here. List who exactly you will report this incident to and how you will do it.
