Subject: Tile Selections

INFORMATION REQUESTED:

Hi Chris,

As discussed, and as noted in the attached email, we have been working through the tiling selections throughout the [REDACTED] with the goal of achieving the best possible finish within the agreed contracted rates.

The schedule of finishes has developed in consultation with the [REDACTED], to achieve the desired look. Paynters have been working with [REDACTED] to try to maintain the desired look, whilst still keeping within the contract budget rates allowed for this project.

The contract Schedule of Finishes tile selection budget is \$116,827.

The current revised schedule of finishes tile selections is currently \$155,000.

As noted, this includes the upgrade of the main bar facade tiles which increased by \$32,076.

In an effort to value manage the tile selections, Paynters produced an alternate tile selection, which incorporated the upgraded main bar facade tiles, which came within budget for \$113,194. The Architects have been working through the proposed alternatives, considering desired look, finish, slip rating and warranty, and have updated to the current schedule.

As discussed, we seek your advice on moving forward, as the selected finishes are currently outside our contract scope allowance.
