UPS Maintenance

One-Off UPS Preventative Maintenance Service

Service Month; August 2019

UPS Details:

DPA UPScale ST60kW S2 S/N: S3UP-358
Module - DPA UPScale 20kW S/N: DUP-25115
Module - DPA UPScale 20kW S/N: DUP-25431

The Preventative Maintenance Covers the Following;

- * To provide a one-off maintenance, during normal working hours
- * A physical inspection
- * A full mechanical check of the unit including inspection of all fans, semi conductors & capacitors.
- * Full function test
- * Battery test including recording of float voltage and impedance readings. A load test will be undertaken when allowed.
- * Clean and vacuum unit if required
- * Environmental check
- * Issue a Sure Power service report stating details of work carried out and adjustments made.

Please Note:

- Sure Power Technicians will attend any site-specific safety inductions as required. However, for lengthy or time-consuming inductions, the Technicians' time spent completing such inductions will be on-charged to the client, as an additional extra to this agreement.
- If any costs are incurred by Sure Power for registration and/or management of external client Compliance Systems, Sure Power reserves the right to on-charge these costs to the client.
- Any additional costs for parking and/or site related access fees will require a variation to this pricing.
