

## Off-site Production Cost Estimation Form

### Instructions to the Assessor

The candidate will review the construction drawings and specifications from *Task 1*. They will then use this *Off-site Production Cost Estimation Form* to document the estimates of producing components off-site, including delivering said components to the construction site.

### Instructions to the Candidate

Use this *Off-site Production Cost Estimation Form* to document the estimates of producing components off-site.

Ensure you have completed all fields in this form before submitting it to your assessor.

**OFF-SITE PRODUCTION COST ESTIMATION FORM**

|                  |               |
|------------------|---------------|
| Participant name | Rex Henderson |
| Date             | 13/05/2024    |

**Details of the Building and Construction Project**

|                                           |                                              |
|-------------------------------------------|----------------------------------------------|
| Name of building and construction project | Rockpool Pelican Waters                      |
| Type of project                           | <input type="checkbox"/> Commercial building |
| State/territory                           | Queensland                                   |

*(Duplicate table below as necessary to account for all components to be manufactured off-site. Add rows as necessary as well.)*

| <b>Component: Precast piles</b> |                             |
|---------------------------------|-----------------------------|
| <b>Associated Cost</b>          | <b>Price</b>                |
| <b>Form</b>                     | \$1000 per pile x 152 piles |
| Reo                             | \$1040 per pile x 152 Piles |
| Concrete                        | \$1400 per pile x 152 Piles |
| Delivery to construction site   | \$1000 per pile x 152 Piles |

| <b>Component: Joinery</b>     |              |
|-------------------------------|--------------|
| <b>Associated Cost</b>        | <b>Price</b> |
| material                      | \$23,455.00  |
| Shipping                      | \$17,000.00  |
