

BSBPMG407A

APPLY RISK MANAGEMENT TECHNIQUES

ASSESSMENT SUMMARY

The assessment activities for *BSBPMG407A Apply risk management techniques* cover all aspects of the unit of competency required. To demonstrate competence in this unit, a participant must undertake all tasks and complete them satisfactorily and consistently. For Apprentices and Trainees, this includes employer completion of the Employer Record Book (ERB).

Participants must read all the information given before starting any assessment task. The assessment tasks are intended to be equitable, fair and flexible. If a participant has any questions or requires alternative arrangements to be made such requests should be directed to their Trainer/Assessor, who should note such arrangements in the 'Assessor Comments' on the affected assessment. If a participant feels they are not yet ready to be assessed, they should discuss their options with their Trainer/Assessor.

To satisfactorily complete the assessment, the participant is required to answer all questions correctly and demonstrate their skills to industry standards. If a participant does not answer some questions or perform some tasks, they will be deemed 'Not Satisfactory' for the task and 'Not Yet Competent' for the unit of competency. The Trainer/Assessor is able to provide the participant with additional information on interpreting the assessment outcomes and provide guidance on the participant's options. Should a participant still be deemed 'Not Satisfactory' they will have the opportunity to undertake a supplementary assessment or appeal the result.

By signing the cover page for each assessment item, the participant acknowledges they understand the assessment instructions and requirements and consent to being assessed. The participant also verifies and assures the RTO that the work submitted is their own work.

APPLY RISK MANAGEMENT TECHNIQUES

THEORY EXAM INSTRUCTIONS

- This exam will occur under standard assessment conditions.
 - An oral examination may be allowed under certain circumstances, whereby the Participant's answers will be documented by a party other than the Participant. This must be acknowledged in writing (e.g. FT001 and Assessor Comments)
- Participants must provide enough detail in their responses to demonstrate their knowledge and skills.
- Please fill in the details below, providing your name, signature and date of assessment.
 - Your signature acknowledges that this is your own work.
- Assessors are to complete marking in pen of a different colour to the Participant.
- If a Participant initially answers a question incorrectly but modifies their response, they must follow the instructions below:
 - If a Participant changes their response in writing, they must put their initials next to the written change.
 - If a Participant changes their response verbally, this must be noted on the exam paper by the assessor.

ASSESSOR COMMENTS

Q1. Describe a project below. Conduct a SWOT analysis for the project. Identify at least two (2) points per area.

Project description

University of the Sunshine Coast Plant Room & Thermal Water Tank

\$2.3m project completed in October 2019.

- Rain water is collected and then cooled via a thermal heat transfer process, then stored in a water tank to be distributed around the USC for every air conditioner.
- USC will be carbon neutral by 2025
- 6000 solar panels also installed
- 4.5 Mega Litre thermal energy storage tank
- USC will cut energy use by 40%
- Over 25 years USC will save \$100m by no buying electricity from the grid
- No cost – Veolia paid for project, Veolia operate the plant for 10 years and sell energy back to USC at cheaper rate – after 10 years USC will own the infrastructure

Answer

Area	Detail
S	STRENGTHS: 1. Site Based Project Team 2. Skillful Work Team & good relationships with Material Suppliers.
W	WEAKNESSES: 1. Type of project new (generally construct unit developments) 2. Tank platform <u>not</u> a provisional sum
O	OPPORTUNITIES: 1. Reliable international investor (Veolia) 2. The possibility on working on future similar projects

T	THREATS: 1. High level of ground water 2. Small area for storage of materials on site
---	--

Q2. Consider the project you identified in Q1. For each of the areas identified in the table below, identify one (1) risk that may arise.

Answer

Area	Project risk
Environmental	Contaminants from site leak into the University Lake adjacent to the construction site.
Finance	Dispute on project variation.
Human resources	Lack of site staff to complete task in timeframe required.
Legal	Head Contract items missed or not included that should have been.
Technology	Issue with coordinating the works between all trades working in the plant room – electrical, mechanical, hydraulic, etc.

☐

Q3. Using ticks, identify whether each of the risk analysis methods listed below is either 'qualitative' or 'quantitative'.

Answer

Qualitative	Quantitative	Method
☐	☒	Analyses expected monetary value
☐	☒	Considers likelihood of occurrence and impact on projective objectives
☒	☐	Ranks risks

☐

Refer to the Risk Matrix below when responding to Q4.

Matrix	A: Catastrophic	B: Major	C: Moderate	D: Minor	E: Insignificant
1: Almost certain	E	E	H	H	M
2: Likely	E	H	H	M	M
3: Occasionally	H	H	M	M	L
4: Unlikely	H	M	M	L	L
5: Rare	M	M	L	L	L

E: Extreme	H: High	M: Medium	L: Low
------------	---------	-----------	--------

Q4. Referring to your responses in Q2. rate each of the risks you identified using the Risk Matrix shown above. Identify the Likelihood and Impact you have determined, plus the overall risk rating.

Prioritise each risk from 1 to 5 (1 = highest priority, 5 = lowest priority).

Answer	Area	Risk rating	Priority	☒
	Environmental	Likelihood: 4. Unlikely Impact: A. Catastrophic Risk rating: H. High	1.	
	Finance	Likelihood: 2. Likely Impact: B. Major Risk rating: H. High	2.	
	Human resources	Likelihood: 3. Occasionally Impact: C. Moderate Risk rating: M. Medium	5.	
	Legal	Likelihood: 4. Unlikely Impact: B. Major Risk rating: M. Medium	4.	
	Technology	Likelihood: 2. Likely Impact: C. Moderate Risk rating: H. High	3.	

Q5. Order the elements of the hierarchy of control, from 1 to 6 (i.e. most effective to least effective).

Answer

Label (1 – 6)	Element
3	Isolate the hazard
6	Provide and use Personal Protective Equipment (PPE)
1	Eliminate the hazard
4	Control the hazard by engineering means
5	Control the hazard by administrative means
2	Substitute the hazard

Q6. Referring to your responses in Q2. propose one (1) risk control for the risk identified in each of the areas listed below.

Answer

Area	Risk control
Environmental	Continually monitor the area for spills & enforce no washing into waterways. Also monitor toxic materials to ensure they are safely handled on site.
Finance	Cross check contract documentation – drawings, schedules & scopes.
Human resources	Confirm total staff allowed for duration of project.
Legal	Head Contract to be reviewed by Contract Manager before signing.
Technology	Program trades to work efficiently together so no delays.

- Q7. Which of the following parties should be consulted and agree to proposed risk managed strategies, plans and reporting mechanisms? Tick all that apply.

Answer	Choice	Possible Answers	☐
	☒	Project manager	
	☒	Project specialist	
	☐	Team members	

- Q8. True or False (Tick your response): Organisations all use the same risk analysis methods, techniques and tools.

Answer	☐	True	☐
	☒	False	

- Q9. Identify the four (4) options that may be followed once you have established the revised risk level.

Answer	1. Do Nothing	☐
	2. Implement Risk Controls	
	3. Reassess the Risk	
	4. Accept the Risk	

- Q10. What is the name of the risk level measured after risk controls have been implemented? Tick all that apply.

Answer	Choice	Possible Answers	☐
	☐	Initial risk	
	☐	Revised risk	
	☒	Residual risk	
	☐	Updated risk	

Q11. On what document should incidents be recorded?

Answer Issues Register as per the organisations requirements

☐

Q12. What is to be completed when a variation is to be made to the project?

Answer Change Request

☐

Q13. True or False (Tick your response): You should report opportunities for action in the same way as risks.

Answer

☒	True
☐	False

☐

Q14. Identify two (2) types of documents that may be referred to when conducting a review of a risk management plan.

Answer

1. Project files & records
2. Risk Diaries, Incident Logs, Occurrence Reports

☐

Q15. Explain the relevance of evaluating project outcomes (e.g. agreed major milestones) as part of reviewing risk management activities.

Answer As this will determine the effectiveness of the risk management activities and responses can be applied to future projects.

☐

Q16. True or False (Tick your response): You may refer to past projects for lessons learned regarding risk management, even when the past projects are not identical to the current one.

Answer

☒	True
☐	False

☐

PRACTICAL ASSESSMENT INSTRUCTIONS

- The following practical assessment will require the Participant to complete work related activities.
- The Assessor will conduct observations of the Participant's work to determine whether they display sufficient practical skills and knowledge.
- Please fill in the details below – providing your name, signature and date of assessment.
 - The Participant's signature acknowledges that the Assessor provided clear instructions and the Participant understood what was required to complete this assessment.
- The Assessor may substitute a Practical Task with an alternate task of equal value.
 - Alternate tasks must be fully documented by the assessor in the Assessor Comments area.

BSBPMG407A APPLY RISK MANAGEMENT TECHNIQUES

Practical Task 1 (2X)

Description of task:

On two (2) occasions, a suitable observer is to verify the participant's ability to apply risk management techniques to complex projects– including, assisting with risk analysis, risk management planning and undertaking a review of risk management outcomes.

A complex project is defined as a project which involves:

- The need for a comprehensive and multi-faceted project plan
- The need for a formal internal or external communications strategy
- A dedicated and diverse project budget
- Multiple administrative components
- Multiple operational components
- A wide range of stakeholders
- A project operations team

The participant is to gather evidence of how they have completed each component of the Practical Task, which is to be submitted with this Practical Assessment sheet. Evidence to be submitted may include:

- SWMS review checklist completed by the Participant
- Task JSA completed by the Participant
- SWMS signed by the Participant
- Design risk assessment completed by the Participant

The observer is to outline the details of each project observed in the 'Observer comments' section. The assessor is to verify the observer's comments and provide the outcome for the practical task on the front cover of the Practical Assessment.

Resources required:

Project records.

Assessment of task

Name of participant:	Emma Carew	
Name of observer:	Ben Green	
Role of observer (Confirm suitability to sign)	Construction Safety / Maintenance Manager	
Email address of observer	bgreen@rcq.net.au	
Signature of observer:		
Date:	7/01/2020	
When completing the task, did the participant:	Tick if satisfactorily completed. Provide comments if left unticked.	
	1st Occasion	2nd Occasion
	☒	☒
1.A. Contribute to identifying and prioritising potential risks throughout the project life cycle.	☒	☒
1.B. Within delegated authority, provide input to develop risk management strategies and risk management plans within established guidelines.	☒	☒

1.C. Establish risk analysis methods, techniques and tools to assist in the analysis of risks.	☒	☒
1.D. Ensure reporting mechanisms for risks were planned for and agreed to.	☒	☒
1.E. Undertake control activities in accordance with agreed project and risk management plans to achieve project objectives.	☒	☒
1.F. Measure progress and act on perceived, potential or actual risks within authority – or report to others for response.	☒	☒
1.G. Contribute to the implementation of agreed risk approaches and the amendment of plans to reflect the changing environment.	☒	☒
1.H. Identify and report opportunities for action in the same way as risks.	☒	☒
1.I. Contribute to the ongoing review of project outcomes to determine the effectiveness of risk management activities, accessing project records and other available information.	☒	☒
1.J. Report risk management issues and responses to others for lessons learned or application in future projects.	☒	☒
The Participant's performance was: ☒ Satisfactory ☐ Not Satisfactory
