[REDACTED],

Our building license – builder open enables us to work on all classes of buildings in Queensland. Please check with me if you are not sure. We will need to take out the appropriate insurances for the project.

Also need to ensure that the sites are compliant with the Work Health and Safety Act and I will guide you through preparing a work health and safety management plan for the site.

A few regulations to be mindful are the NCC volume 1 or 2 dependent on the class of building., Building Act, QBCC Commission Act, Australian standards and the Environmental Protection Act.

However, if you have any queries at all, do not hesitate to contact me to clarify.

Kind Regards,

Patrick Lee
