PREVENTION.

Architectural elevation drawing of the right side of a building. The drawing shows a two-story structure with a gabled roof on the left and a flat roof on the right. The left side features a gabled roof with a 21-pitch, colorbond sheeting, and a 90 x 90 timber post. The right side has a flat roof with a 21-pitch, colorbond sheeting, and a 300 x 300 tiled floor. The building is clad in aluminum and glass delustrade. The ground floor has a 600 x 600 tiled floor, a 600 x 600 tiled floor, and a 600 x 600 tiled floor. The first floor has a 600 x 600 tiled floor, a 600 x 600 tiled floor, and a 600 x 600 tiled floor. The drawing includes dimensions and labels for various components, including cladding, timber post, delustrade, roof sheeting, and floor tiles.
