

BSBOHS201A PARTICIPATE IN OHS PROCESSES ASSESSMENT SUMMARY

The assessment activities for *BSBOHS201A Participate in OHS processes* cover all aspects of the unit of competency required. To demonstrate competence in this unit, a participant must undertake all tasks and complete them satisfactorily and consistently. For Apprentices and Trainees, this includes employer completion of the Employer Record Book (ERB).

Participants must read all the information given before starting any assessment task. The assessment tasks are intended to be equitable, fair and flexible. If a participant has any questions or requires alternative arrangements to be made such requests should be directed to their Trainer/Assessor, who should note such arrangements in the 'Assessor Comments' on the affected assessment. If a participant feels they are not yet ready to be assessed, they should discuss their options with their Trainer/Assessor.

To satisfactorily complete the assessment, the participant is required to answer all questions correctly and demonstrate their skills to industry standards. If a participant does not answer some questions or perform some tasks, they will be deemed 'Not Satisfactory' for the task and 'Not Yet Competent' for the unit of competency. The Trainer/Assessor is able to provide the participant with additional information on interpreting the assessment outcomes and provide guidance on the participant's options. Should a participant still be deemed 'Not Satisfactory' they will have the opportunity to undertake a supplementary assessment or appeal the result.

By signing the cover page for each assessment item, the participant acknowledges they understand the assessment instructions and requirements and consent to being assessed. The participant also verifies and assures the RTO that the work submitted is their own work.

Participant Name	Daniel Archer
------------------	---------------

Task	Assessment Results	
Theory Exam	☐ Satisfactory	☐ Not Yet Satisfactory
Practical Assessment	☐ Satisfactory	☐ Not Yet Satisfactory
Outcome for Unit of Competency	☐ Competent	☐ Not Yet Competent

BSBOHS201A

PARTICIPATE IN OHS PROCESSES

THEORY EXAM INSTRUCTIONS

- This exam will occur under standard assessment conditions.
 - An oral examination may be allowed under certain circumstances, whereby the Participant's answers will be documented by a party other than the Participant. This must be acknowledged in writing (e.g. FT001 and Assessor Comments)
- Participants must provide enough detail in their responses to demonstrate their knowledge and skills.
- Please fill in the details below, providing your name, signature and date of assessment.
 - Your signature acknowledges that this is your own work.
- Assessors are to complete marking in pen of a different colour to the Participant.
- If a Participant initially answers a question incorrectly but modifies their response, they must follow the instructions below:
 - If a Participant changes their response in writing, they must put their initials next to the written change.
 - If a Participant changes their response verbally, this must be noted on the exam paper by the assessor.

ASSESSOR COMMENTS

Q1. Match the terms and definitions by writing the appropriate letter next to each number in the centre column.

Answer	Terms	Answers	Definition	
	1 PRA	1 - F	A Outline the requirements of the work to be undertaken.	
	2 JSA	2 - E	B Outline what to do in the event of fires and other accidents	
	3 Plans and specifications	3 - A	C Contains important information about hazardous materials or chemicals.	
	4 Manufacturer specifications	4 - D	D Outlines how tools and equipment should be used (e.g. lubricant levels, maintenance requirements).	
	5 SDS	5 - C	E Identifies hazards and potential hazards that may be encountered while working.	
	6 Emergency procedures	6 - B	F A personal assessment of risk	

Q2. For each of the hazards identified below, describe the injuries/damage they may cause (i.e. to fellow workers, other people and/or animals) and suggest a suitable control measure.

Answer	Hazard	Injuries or damage	Control measure	
	Hazardous chemical	Skin rashes/infections Chemical burns Respiratory damage	The correct protective (P.P.E) must be worn. i.e. -gloves, long sleeves, eye wear	
	Noise	Hearing loss/damage Headaches Fatigue	Hearing protection to be worn	
	Manual handling	Strains, sprains muscle damage	Correct lifting procedures	

Q3. Who should you speak to if you find problems (e.g. hazards, accidents and emergencies)?

Answer Supervisor, WHS officer, Foreman, Site manager

Q4. What action should be taken if plant, tools and/or equipment are found to be defective? Tick your response.

Choice	Possible Answers
☐	Report, Record
☐	Stop, Report, Record
☒	Stop, Tag, Report, Record
☐	Stop, Fix, Report, Record

Q5. Which legislation relates to safety in the workplace? Tick your response.

Choice	Possible Answers
☐	Occupational Health and Safety Act 2015
☒	Work Health and Safety Act 2011
☐	Safety Act 1900
☐	Safety and Health Act 2011

Q6. True or False (Tick your response): Employers are required by legislation to implement safety measures which are reasonably practicable.

☒	True
☐	False

Q7. True or False (Tick your response): Workers are required by legislation to follow reasonable employer directives (e.g. to undertake first aid and/or fire safety training).

☒	True
☐	False

Q8. The following symbols appear under the heading 'Required PPE' on an SDS. What do the symbols represent?

Answer

Symbol	Meaning
	Long sleeve and pants must be worn
	Gloves must be worn
	Protective eyewear to be worn
	Correct mask must be worn

Q9. Describe the meaning and use of the signs displayed below.

Answer

Sign	Meaning
	First Aid Located Here
	The area beyond this sign is classed as not safe to enter
	Fire extinguisher located here

Refer to the Risk Matrix below when responding to Q10. to Q12.

Matrix	A: Death or permanent disability	B: Serious injury	C: Lost time injury	D: Casualty Treatment	E: First Aid
1: Very Likely	E	E	H	H	M
2: Likely	E	H	H	M	M
3: Possible	H	H	M	M	L
4: Unlikely	H	M	M	L	L
5: Very Unlikely	M	M	L	L	L

E: Extreme	H: High	M: Medium	L: Low
------------	---------	-----------	--------

Q10. Which rating is designated for the highest risk and which rating is used for the lowest risk?

Answer Highest Risk: E ☐
Lowest Risk: L

Q11. What is the risk rating for the following circumstances: An event which is possible and would require low-level hospital treatment.

Answer M ☐

Q12. What are the factors that would lead to a risk rating of E: Extreme?

Answer An event which is likely or very likely, and may result in death or permanent disability, or serious injury. ☐

Q13. When should safety checks be undertaken on machinery and equipment? Tick your response.

Answer

Choice	Possible Answers
☐	Before operation
☐	After operation
☒	Both before and after operation

☐

Q14. Order the elements of the hierarchy of control, from 1 to 6 (i.e. most effective to least effective).

Answer

Label (1 – 6)	Element
3	Isolate the hazard
6	Provide and use Personal Protective Equipment (PPE)
1	Eliminate the hazard
4	Control the hazard by engineering means
5	Control the hazard by administrative means
2	Substitute the hazard

Q15. Why is elimination the best method of hazard control and PPE considered the least effective?

Answer

Elimination of the hazard is most superior as the hazard is removed and no longer requires any control method.
P.P.E does not remove the hazard, and the worker is still exposed to the potential hazard.

Q16. If you were to replace a flammable solvent with a water-based solvent, what category of control measure would that be under the hierarchy of control?

Answer

Substitute the hazard.

- Q17. In the diagram below a person is lifting a tool box.
Filling in the table, indicate how each body part should be used/placed.

Answer ☐

Area of body (Letter)	How it should be placed
D	Level
A	Upright
F	Good grip
B	Natural curve
E	Bent
C	Flat, facing load

- Q18. In a medical emergency, what is the first step in the DRSABCD action plan that you need to follow?

Answer ☐ the danger is to be checked/determined.

- Q19. In the event of a fire emergency, what should you do?
Fill in the table below to explain the acronym R.A.C.E.

Answer ☐

Letter	Meaning
R	Remove people from the immediate danger
A	Alert people of the emergency
C	Confine/contain the fire or smoke
E	Evacuate to the assembly area

Q20. What should you do as part of the clean up process? Tick all that apply.

Answer

Choice	Possible Answers
☐	Store all plant, tools and equipment without cleaning
☒	Maintain plant, tools and equipment
☒	Dispose of materials that cannot be reused or recycled
☒	Report faults in logbook and/or site records
☒	Clean all plant, tools and equipment before storage

☐

Q21. Read the scenario below and complete the Hazard Report Form.

SCENARIO

Today at 10:45am a delivery truck reversed into a car park (located at 54 Standish Street, Salisbury) to deliver gardening materials. There was nobody in the car park to guide the driver and he backed into a number of drums of diesel located to the left of the photograph (below). One drum was pierced and its contents erupted from the container.

The marked area on the photo represents the diesel spill, measuring 3m x 4m.

HAZARD REPORT FORM

GENERAL				
Date	07/04/20			
Submitted by	Daniel Archer			
HAZARD DETAILS				
Location	54 Standish St. Salisbury.			
Description of issue	A delivery truck has backed into several drums of diesel when delivering garden materials. As a result one of the drums was pierced and there is a diesel spill measuring 3m x 4m.			
Risk class	☐ Extreme	☒ High	☐ Medium	☐ Low
CONTROL MEASURES				
Corrective action required	Temporary fence or barricade to be installed to isolate the hazard. Sand to be brought in to cover the diesel and lessen the flammability. Some signage can be erected to display the hazard. Clean up the spill, remove the sand, remove the signs and barricade. Contact who is responsible for leaving diesel drums in the carpark. Make the landscaper			
Person to action	Site manager	When	☒ Immediately ☐ Within 24 hours ☐ Within 7 days	

Answer

supply company aware. Investigate whether back charges need to be enforced. Have someone there on site for all future deliveries.

Q22. Who would you submit a hazard report form to?

Answer

Supervisor, H+S representative, site manager, foreman

☐

Q23. Who would approve proposed risk controls and organise the required resources for implementation of the risk control?

Answer

Supervisor, H+S representative, site manager, foreman

☐

Q24. Identify one (1) way you can assess if risk controls have been effective.

Answer

Conduct a P.R.A
or perform Risk Analysis.

☐
